Dear LTCIF Participant

Thank you for your interest in the supplementary reading list for my recent presentation May 9, 2008 at the LTCIF program in Mesa, AZ. I'm providing three excellent articles each of which is heavily annotated themselves with extensive bibliographies.

They all were provided as resource material in Dallas, TX at the Duke Clinical Research Institute in June 2006 in a presentation by Dr Kevin F. Gray- Associate Professor of Psychiatry & Neurology at University of Texas Southwestern Medical School .
